Summary of Report:

Council is to consider revoking the previous decision of Council to demolish the Brookton Railway Station,

Description of Proposal:

The Brookton Railway Station is a site of rich heritage in the Brookton community. For nearly 100 years the station has held its central place in the Brookton streetscape and been a constant for generations of Brookton residents. Understandably many Brookton residents wish to retain the Station and preserve this heritage.

The Shire of Brookton, given their lease over the Railway Station since 1987, have acknowledged that the ongoing building maintenance that should have occurred at the Brookton Railway Station did not. This is not a single failing that be allocated to individuals, but the Shire of Brookton accepts the collective responsibility.

The Brookton Railway Station is now in a very poor condition. The Brookton Railway Station has been fenced off for public safety since 2019. The works required to refurbish the Station to a standard to last another 100 years is significant.

The decision of Council at their October Meeting:

OCM 10.24-04

COUNCIL RESOLUTION

MOVED Cr de Lange SECONDED Cr Bell

That Council commence a redevelopment of the Brookton Railway Station site in a stage manner including:

1. Stage 1 demolition of existing Brookton Railway Station building;
2. Stage 2 make good the Brookton Railway Station platform to allow public access to the platform. This action is likely to require fencing the platform nearest the active railway line;
3. Stage 3 Commence a public consultation process to redesign the public space in Robinson Road; and
4. Stage 4 complete construction in the public space in Robinson Road.

CARRIED BY SIMPLE MAJORITY VOTE 5/2

For: Cr Crute, Cr de Lange, Cr Hayden, Cr McCabe, Cr Wallis

Against: Cr Bell, Cr Copping

was the result of Council not being able to commit to a refurbishment tender where the cost of the refurbishment as not providing value for required investment.

Community Debate

While understanding that while many in the community strong wish to have the refurbishment of the Railway Station achieved as a priority to retain the heritage of Brookton's proud past. These community members passionately believe that the Brookton Railway Station refurbishment is a project suitable to use a portion of the Shire's reserve funds.

There are also others in the Brookton community that believe there are alternative projects in Brookton that are of a higher priority. Brookton requires increased housing, new commercial and industrial sites and community infrastructure to provide the homes, jobs and lifestyle for Brookton's future.

Both these views are valid and the Shire understands the emotional attachment to each view. Currently the debate over this area of Brookton's future is dominated by a few and is not conducive to the sharing of contrary views. The Brookton community is currently divided and needs to come together to consider and attempt to resolve these competing priorities.

To assist in providing a safe space to review future options, it may be in Council's interest to rescind current position of Council to move to the demolition of the Brookton Railway Station to allow for future

An activity in the new year to review the town centre of Brookton, the current and future uses and consider the place of the Brookton Railway Station in that future, may assist in establishing a shared view of Brookton's future.

Clarity of Costing Information

The Report to Council on 19th September 2024 to consider RFT 07-2023 Brookton Railways Station Refurbishment has contained contrary and confusing information.

The advice provided by some staff in relation to the two stages of the Tender was in keeping with Council's previous resolution in 2023 that the refurbishment work include:

- a. Stage 1 - Stabilise the building, replace the roof tiles and effect repairs to the exterior of the building, including the platform area; and
- b. Stage 2 - Refurbish and platform fencing to limit access to the rail corridor from the platform.

The actual tender specification included a requirement to complete two stages. The two stages included in the tender specification were to:

- a. Stage 1 - Complete external works including stabilising the building and platform, replacing roof tiles, paving the platform area and installation of fence on the platform; and
- b. Stage 2 - Complete an internal fit out of the building, installation of two ramps in the platform area;

No other external landscaping of any kind was included.

Therefore the tendered costs of \$1,980,155.97 to \$1,432,560.00 (GST Exclusive) represented

the total cost of both external and internal works.

The tendered costs do not include any allowance for costs involved in working near an active rail line. These costs remain unknown and will only be able to be calculated after the appointment of a contractor and the finalisation of agreements between the contractor and Arc Infrastructure to establish track access.

Under the requirements of clause 11(2)(c) of the Local Government (Functions and General) Regulations 1996, if Council wished to complete the scope of works, Council is able to negotiate with a suitable provider to complete the works.

Potential Additional Funding

Cr Crute, in her role as Shire President, has been undertaking discussions with funding bodies regarding the possibility of obtaining additional funding to complete the refurbishment of the Brookton Railway Station. Public statements have been made in various media outlets about the potential to help retain this important community asset.

At the time of agenda preparation all these discussions were preliminary in nature and no detailed proposals have been received by Council. At the point that such a concrete proposal is received, Council should be review all such offers.

Background:

Shire of Brookton has been addressing the poor condition of the Brookton Railway Station for the since 2019.

In 2021 the Council engaged the services of an architect consultant to develop concept design options for the Brookton Railway Station. Following community consultation and submissions on the four options provided, in January 2022 Council endorsed option 1B, the refurbishment of the existing station building.

Council approved a staged approach to the refurbishment of the Brookton Railway Station which included the following:

- Stage 1- Stabilise the building, replace the roof tiles and effect repairs to the exterior of the building;
- Stage 2- Refurbish the platform area and platform fencing to limit access to the rail corridor from the platform;
- Stage 3- Access ramp to the platform area to comply with Australian Standards; and
- Stage 4- Interior of building and landscaping.

At their July 2023 Council in part decided to approve:

1. accepts the risks associated with the presence of asbestos at the Brookton Railway Station in completing the transfer of Management of the Brookton Railway Station from the Public Transport Authority to the Shire of Brookton;
2. approves the replacement of the Brookton Railway Station ceramic roof tiles with similar modern ceramic roof tiles; and
3. approves:
 - a. Stage 1 - Stabilise the building, replace the roof tiles and effect repairs to the exterior of the building; and
 - b. Stage 2 - Refurbish the platform area and platform fencing to limit access to the rail corridor from the platform;

of the Brookton Railway Station Refurbishment to be completed concurrently to minimise disruption to rail traffic and rail safety compliance costs.

In September 2024 Council considered tenders ranging from \$1.432Million to \$1.980Million. Council decided to not accept any tender. In making this decision Council did not resolve the Officer's Recommendation because Council did not believe that the proposed works were value for money for the community.

Subsequently at their October 2024 Council reviewed the Brookton Railway Station and resolved to commence a redevelopment of the Brookton Railway Station site in a staged manner including:

1. Stage 1 demolition of existing Brookton Railway Station building;
2. Stage 2 make good the Brookton Railway Station platform to allow public access to the platform. This action is likely to require fencing the platform nearest the active railway line;
3. Stage 3 Commence a public consultation process to redesign the public space in Robinson Road; and
4. Stage 4 complete construction in the public space in Robinson Road.

Consultation:

Council has completed significant amounts of public consultation with this project.

Statutory Environment:

Local Government (Functions and General) Regulations 1996

11. When tenders have to be publicly invited
- (2) Tenders do not have to be publicly invited according to the requirements of this Division if —
 - (c) within the last 6 months —
 - (i) the local government has, according to the requirements of this Division, publicly invited tenders for the supply of the goods or services but no tender was submitted that met the tender specifications or satisfied the value for money assessment; or

Local Government (Administration) Regulations 1996

10. Revoking or changing decisions (Act s. 5.25(1)(e))
- (1) If a decision has been made at a council or a committee meeting then any motion to revoke or change the decision must be supported —
 - (a) in the case where an attempt to revoke or change the decision had been made within the previous 3 months but had failed, by an absolute majority; or
 - (b) in any other case, by at least $\frac{1}{3}$ of the number of offices (whether vacant or not) of members of the council or committee, inclusive of the mover.
- (1a) Notice of a motion to revoke or change a decision referred to in subregulation (1) is to be signed by members of the council or committee numbering at least $\frac{1}{3}$ of the number of offices (whether vacant or not) of members of the council or committee, inclusive of the mover.
- (2) If a decision is made at a council or committee meeting, any decision to revoke or change the decision must be made by an absolute majority.
- (3) This regulation does not apply to the change of a decision unless the effect of the change would be that the decision would be revoked or would become substantially different.

Relevant Plans and Policy: Nil

Financial Implications:

Through the sale of Kalkarni in 2019, the Shire of Brookton has received a once in a generation financial windfall, that with prudent use support the growth and amenity of Brookton for the next 20 years. The Shire of Brookton retains over \$11 Million in financial reserves.

The tendered prices are within or near to the 2024/25 Budget allocation of \$1,838,150 for this construction project.

Tenderer	Tendered Price GST Exclusive
CLPM	\$1,980,155.97
COLGAN	\$1,888,898.49
Stallion Building Company	\$1,432,560.00
Pretender Quantity Surveyor Estimate – For comparison	\$1,827,000.00
Budget	\$1,838,150.00

Risk Assessment:

Using the Shire of Brookton’s Risk Framework the consequences of the current debate of the future of the Brookton Railway Station have Major impact, with substantial community concern and substantial media or political attention. The likelihood of these consequences is Almost Certain.

This rating would require measures to be implemented to reduce these risks before proceeding.

Consequence Likelihood	Insignificant	Minor	Moderate	Major	Extreme
Almost Certain	Medium	High	High	Severe	Severe
Likely	Low	Medium	High	High	Severe
Possible	Low	Medium	Medium	High	High
Unlikely	Low	Low	Medium	Medium	High
Rare	Low	Low	Low	Low	Medium

Risk Rating	Action
LOW	Monitor for continuous improvement.
MEDIUM	Comply with risk reduction measures to keep risk as low as reasonably practical.
HIGH	Review risk reduction and take additional measures to ensure risk is as low as reasonably achievable.
SEVERE	Unacceptable. Risk reduction measures must be implemented before proceeding.

Community & Strategic Objectives:

The restoration of the Railway Station is a high profile community project.
